For Immediate Release

# Cornwall Community Hospital Launches ATM Partnership with Your Credit Union

February 13th, 2012

Your Credit Union has expanded its community footprint by officially completing the installation of two Automated Teller Machines (ATM's) at the Cornwall Community Hospital.

One ATM is located at the main campus on McConnell, and the second one is installed at the Hospital's 2nd Street East location.

According to Your Credit Union's VP of Sales and Business Development, Joel Lalonde, *"...we wish to congratulate the Hospital for their great work in the community and thank them for their long-standing relationship with Your Credit Union."*

He adds, *"2012 is the International Year of the Co-operatives. This partnership with the Cornwall Community hospital reinforces Your Credit Union's promise to serve our owners and communities as a proud financial services co-operative."*

The Hospital is currently undergoing a major construction project. The addition of the ATM's as a part of the construction process further reinforces Your Credit Union's commitment as a dedicated community partner.

"This partnership between Cornwall Community Hospital and Your Credit Union will provide an enhanced level of convenience for patients, their families, health care employees and visitors alike," says Doug MacMillan, Sales Manager at Your Credit Union's Cornwall branch.

In a move to better serve the Cornwall community, Your Credit Union will be commencing a significant construction project of its own by completely renovating its 2nd Street location this year.
